

Tough Viking

From beginning to end!

We humans love to challenge ourselves and push the boundaries. And of course GigantPrint understands this! Our challenge was to help Tough Viking to create this major event. This is Sweden's biggest obstacle course and is a trailblazer in Scandinavia. Races are organised for both adults and children.

Our job is to make sure that all obstacles and the setting look their best. Using our wide range of products, you can see the results for yourselves below in all the wonderful photos. Everything from banners and stickers to signs and templates for logos!

Our experience is a strength! When it comes to events like this, you have to deliver products that can withstand tough conditions!

Niclas Hellberg

Project Manager, GigantPrint
